

IntelliJ IDEA installimine

- [Download](#)
- [Installimine](#)

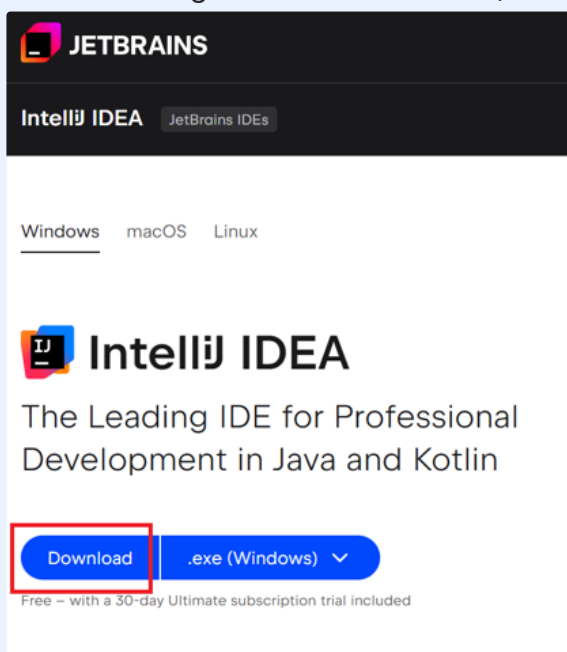

Download

Tõmba alla IntelliJ IDEA installikas:

 [Download IntelliJ IDEA](#)

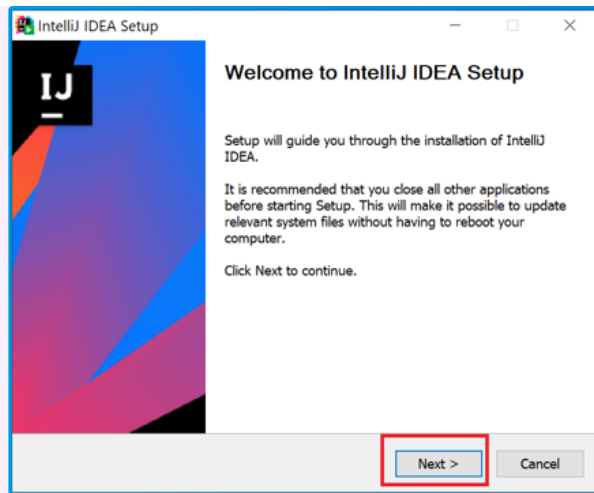

- Tõmba alla õige versioon (Windows)

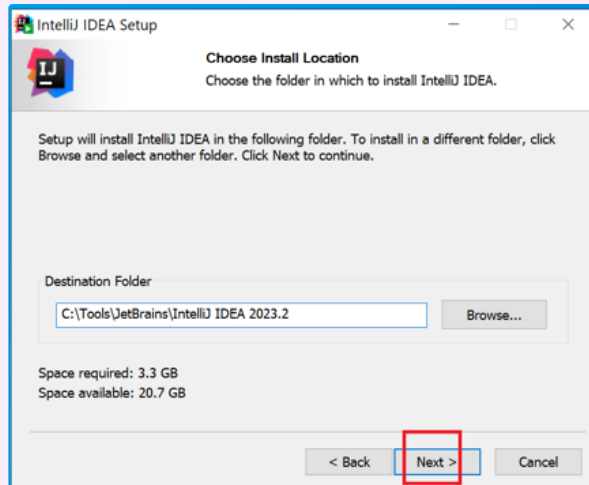

Installimine

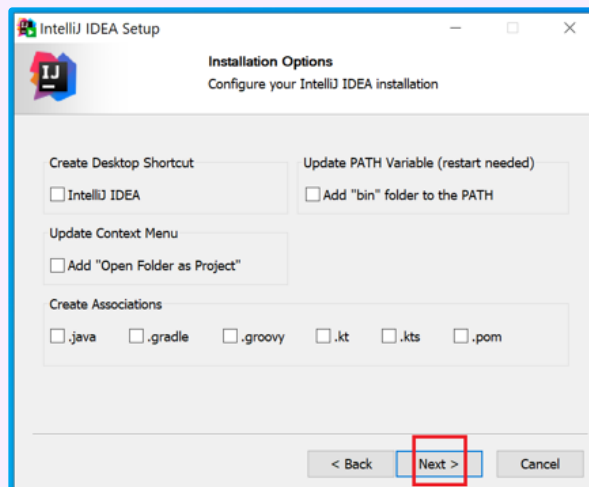

- → Next

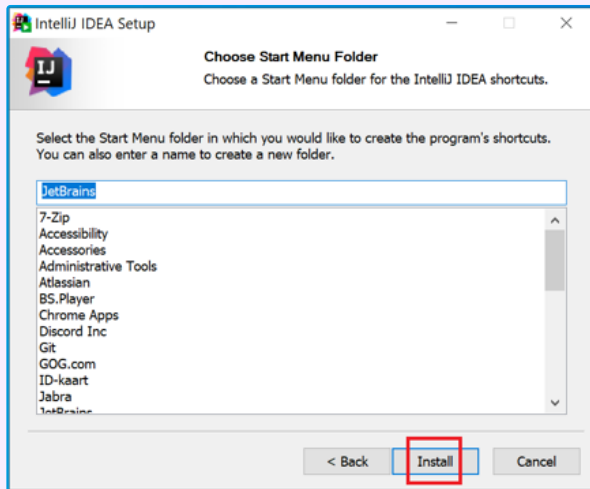

- Vali kuhu salvestada → Next

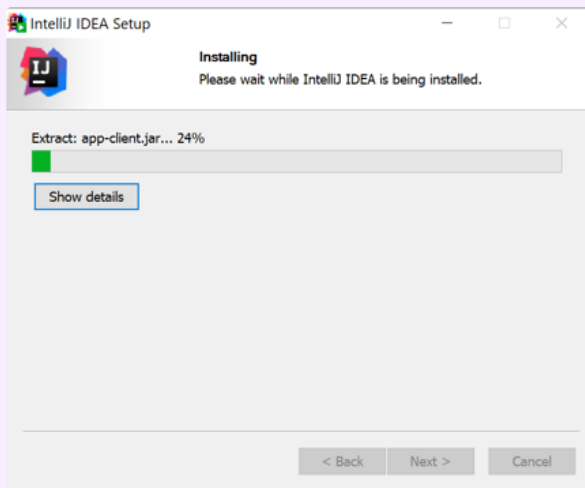

- → Next

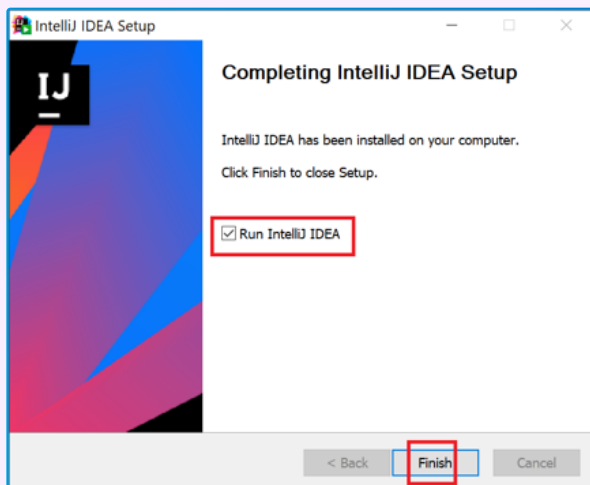

- → Install

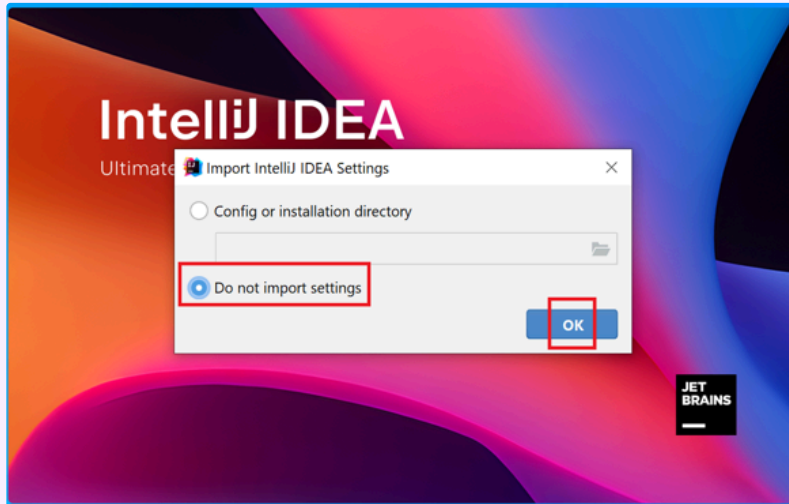

- Oota installimist

- Vali Run... ja siis → Finish

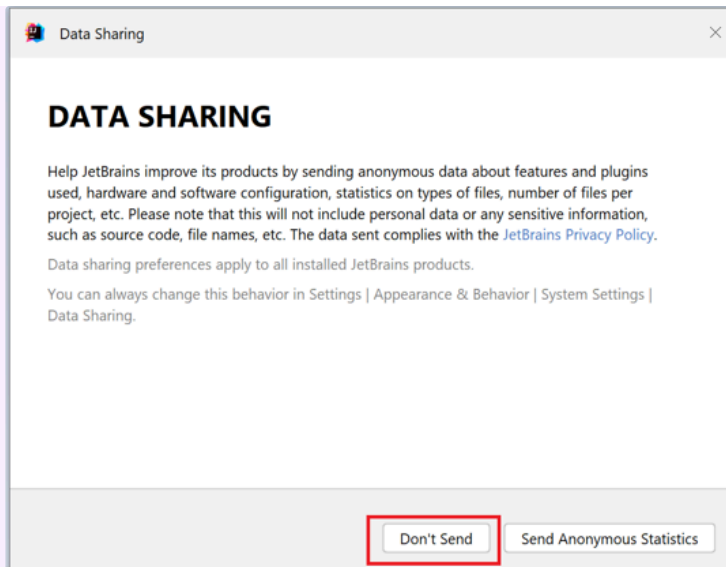

- Nüüd järgmisena on 2 võimalust
 - Importida seadistused kohe esmakordse avamise käigus
 - Mitte importida seadistusi
- Do not import settings → OK

- IntelliJ avaneb

- Ei näe põhjust Data sharinguks

- Juhul kui tuleb ette selline Defender Firewall teade, siis → Allow access
